INFO

SUPPLEMENT TO
REPORT NO. 25X1

THIS IS UNEVALUATED INFORMATION

25X1

1. Rudniki (58-57N, 28-16E), located approximately 20 kilometers southeast of Slantsy (59-06N-28-03E), is a small place which only came into existence in 1945 owing to the presence of oil shale in the area.

2. Electric Power Station

b. The power station, which was still under construction in October 1949, was scheduled to be put into commission in January 1950.

c. Installed power: one small and two large turbines had been installed. They were of German make and came from Magdeburg. The voltage is 120,000 V.

e. In October 1949, Rudniki was still being supplied with electric power from Slantsy.

1. Main building. Three-story, concrete building with two chimneys, completed in October 1949 but not put into commission.
2. Workshop; small, one-story, concrete building.
3. Two-story building. To all appearances, administration or living quarters.
4. Shed.
5. Two-story building, from which cables lead in the direction of Rudniki and to the north.
6. Railway line going west from Rudniki.
